

Meeting Summary of July 17th, 2025

Date: July 17th, 2025

Time: 19:00–20:00 PM(PCT)

Attendees: Prof. Jan, Prof. Jaber, Prof. Yue, and Feng

Topic: Feng's report on the proposal template and feedback from supervisors

Summary of Discussion

- Feng gave a brief report the proposal template, including six major sections: *Introduction, Thesis Objectives, Data Description, Literature Review, Methodology, and Preliminary Results*.
- Prof. Jaber gave some suggestions in correctly naming the sections and subsections, to make the upcoming content be more connected and concise.
- Prof. Jan suggested to make a clear timeline table for the rest thesis work, precise to the week.
- Professors advised Feng to focus on the research objectives and to explain the data set clearly, to make the proposal more focused and plan the work more clearly. Analyzing work(*Preliminary Results*) on the data is more minor than the first five sections.
- Prof. Jaber and Prof. Jan mentioned another paper and its data set, which is about threshold detection in forest fire analysis. It can be useful to be part of Feng's thesis work about threshold detection.

Decisions Made

- The design of the framework is important and writing the proposal clearly and concisely is more necessary than preliminary analysis.
- Time management is crucial, Feng needs to get ready for parallel working on the writing and other tasks.
- The new paper about forest fire analysis can be useful and fit for Feng's thesis work.

Action Items

- Feng will make corresponding changes and finish the first draft of the proposal as much as possible, and submit it by July 23rd, day before next meeting.
- Prof. Jaber will send the paper about forest fire analysis and its data set to Feng.
- Prof. Jan will prepare some other materials for Feng, including his graduate students' proposal timeline and so on.

Follow-Up

Temporary meeting time: July 24th, 2025, 19:00–20:00 PM(PCT) via Zoom.

Supportive materials

- A meeting recording was stored in Feng's laptop for reviewing.
- A pdf of the proposal template shared in this meeting was stored locally and in the Google Drive.
