

Meeting Summaries of October 2nd 2025

Date: October 2nd, 2025

Time: 8:00–8:30 PM(PCT)

Attendees: Dr.Jan, Dr.Jabed, Dr.Yue and Feng

Topic: Feng's report about the second proposal and developed pollution assessment method

Summary of Discussion

- Feng gave a brief summary of the major changes in the second proposal, including the contents that have been overwritten, added and revised.
- Feng introduced a designed pollution assessment method that is PCA based and data driven, talked about two examples of using weights for types of pollutants to generate differently similar pollution scores.
- Dr. Jan suggested to add good rational and explanation for this weighted PCA based pollution assessment method. To the proposal work, Dr. Jan suggested to focus more on the overall view with supportive references, to talk clearly what questions will be answered in the work.
- Dr. Jabed suggested to modify and polish the second proposal, some clear visualization graphs are good to be added to the proposal to enhance the readability and clarity. And it should be finished soon.
- Dr. Jabed talked about Feng's application for Phd program, suggested to prepare a first draft of an article for it. And this application topic can be discussed in next meeting.

Decisions Made

- The second proposal can be modified and polished further, with more clear visualization graphs and concise words.
- The the weight-selecting of the pollution assessment method can be more rational and data driven, to make it more objective and convincing.

Action Items

- Feng will polish the second proposal and try to revise and add some methodology workflow graphs to enhance the readability and clarity.
- Feng will try to make the weight-selecting of the pollution assessment method more ecologically rational and data driven.

Follow-Up

Temporary meeting time: October 9th, 2025, 20:00–20:45 PM(PCT)

Supportive materials

- A meeting recording with subtitles has been restored in Feng's computer.
- The presentation slide has been uploaded to the Google Drive folder - 'Oct_2nd_25_meeting' in the 'Thesis_Meeting_Notes' repository.
